Prescription & Enrollment Form

Lysosomal Storage Disorders (LSD)

accredo®

Four simple steps to submit your referral.

1 Patient Information

Please provide copies of front and back of all medical and prescription insurance cards.

☐ New patient ☐ Current patient

Patient's first name _____ Last name _____ Middle initial _____

Sex at birth: ☐ Male ☐ Female Pronouns _____ Last 4 digits of SSN _____ Date of birth _____

Street address _____ Apt # _____

City _____ State _____ Zip _____

Home phone _____ Cell phone _____ Email address _____

Parent/guardian (if applicable) _____

Home phone _____ Cell phone _____ Email address _____

Alternate caregiver/contact _____

Home phone _____ Cell phone _____ Email address _____

☐ OK to leave message with alternate caregiver/contact

Patient's primary language: ☐ English ☐ Other If other, please specify _____

2 Prescriber Information

All fields must be completed to expedite prescription fulfillment.

Date _____ Time _____ Date medication needed _____

Office/clinic/institution name _____

Prescriber info: Prescriber's first name _____ Last name _____

Prescriber's title _____ If NP or PA, under direction of Dr. _____

Office phone _____ Fax _____ NPI # _____ License # _____

Office contact and title _____ Office contact email _____

Office street address _____ Suite # _____

City _____ State _____ Zip _____

Infusion location: ☐ Patient's home ☐ Prescriber's office ☐ Infusion site If infusion site, complete information below dotted line:

Infusion info: Infusion site name _____ Clinic/hospital affiliation _____

Site street address _____ Suite # _____

City _____ State _____ Zip _____

Infusion site contact _____ Phone _____ Fax _____ Email _____

3 Clinical Information

CHECK ONE

*You must note the name of the brand product if brand is medically necessary for your patient _____

**Adult and pediatric titration dosing can be found in the Xenpozyme Package Insert _____

All medications requiring reconstitution and/or dilution will be prepared according to manufacturer guidelines.

☐ Other instructions _____

☐ **Premedication to be given 30 minutes prior to infusion:** *(please check box to the left if desired to be included with order)*
- Diphenhydramine 25mg by mouth for mild infusion reactions, may increase to 50mg for history of moderate to severe
- Acetaminophen 650mg by mouth
- MPS Patients: Cetirizine 10mg once a day unless prescribed on age (see below)

☐ Other _____

For patients weighing less than 60kg, the following weight-based dosing range will be used: Acetaminophen: 10–15mg/kg

For pediatric patients, the following weight- and age-based dosing range will be used:
≤9kg and/or <2 years old: Diphenhydramine 1mg/kg up to max of 6.25mg
2–5 years old and >9kg: Diphenhydramine 6.25mg to 12.5mg
6–12 years old: Diphenhydramine 12.5 to 25mg

MPS patients: Ceritzine: 2-6 years old 2.5mg once daily; adults and children >6 y/o 5mg once a day

☐ **Medications to be used as needed:** *(please check box to the left if desired to be included with order)*
- Diphenhydramine 25mg by mouth every 4–6 hours as needed for mild infusion reactions, may increase to 50mg for moderate to severe; maximum of 4 doses per day
- Lidocaine 4% applied topically to insertion site prior to needle insertion as needed to prevent site pain
- Acetaminophen 650mg by mouth every 4–6 hours as needed for fever, headache or chills; maximum of 4 doses per day
- MPS patients: Ceritzine: 2-6 years old 2.5mg once daily; adults and children >6 y/o 5mg for mild symptoms and may use 10mg for severe symptoms

Adverse Reaction medications: *(keep on hand at all times)*
- Epinephrine 0.3mg auto-injector 2-pk for patients weighing greater than or equal to 30kg. Administer intramuscularly as needed for severe anaphylactic reaction times one dose
- Epinephrine 0.15mg auto-injector 2-pk for patients weighing less than 30kg. Administer intramuscularly as needed for severe anaphylactic reaction times one dose
- Diphenhydramine 25mg by mouth for mild allergic reactions and 50mg for moderate to severe
- Normal Saline 500mL bolus administered intravenously for allergic reaction/anaphylaxis, infuse wide open up to a max rate of 250mL per hour as tolerated by the patient (when required by manufacturer).

Flushing orders:
- 0.9% Normal Saline or Dextrose 5% (as required per manufacturer) 3mL intravenous (peripheral line) or 10mL intravenous (central line) before and after infusion, or as needed for line patency
- Heparin 10 units per mL 3mL intravenous (peripheral line) as needed for final flush
- Heparin 100 units per mL 5mL intravenous (central line) as needed for final flush
- Additional orders: may flush with 20mL Normal Saline post infusion to clear drug from line

Supplies: *(please strike through if not required)*
Dispense needles, syringes, ancillary supplies and home medical equipment necessary to administer medication.

Quantity/Refills: Dispense 1 month supply. Refill x 1 year unless noted otherwise. ☐ Dispense 90 day supply. Refill x 1 year unless noted otherwise.
☐ Other _____

Skilled nursing visit as needed to establish venous access, administer medication and assess general status and response to therapy.

If shipped to physician's office or infusion clinic, physician accepts on behalf of patient for administration in office or infusion clinic.

Prescriber's signature required (sign below) (Physician attests this is his/her legal signature. NO STAMPS)
